

BUILDING A MASTERPIECE FOUNDATION

SELF-AWARENESS JOURNEY

daVinci Consulting's program, *Building a Masterpiece Foundation* is a rigorous and systematic process for building deep self-awareness. Our approach is NOT a fix-it or look downward approach. Rather we encourage our clients to focus on growth as they connect into their unique passions, strengths, and brand.

The daVinci coach helps the client make sense of their self-discoveries as they apply tools, receive feedback from others, and engage in personal observations.
